

# Term 1 Week 9

## NEWSLETTER

### Principal Report

Dear Parents and Carers,

This term, our students have had the exciting opportunity to enhance their learning through a variety of engaging excursions and incursions. These experiences not only complement our classroom activities in English, STEAM, and PDHPE but also provide students with hands-on learning opportunities that bring their lessons to life.

By the end of Week 10, Stage 3 students will have participated in the GRIP Leadership Day, where they developed essential leadership skills and learned the importance of teamwork and communication. K-3 students enjoyed a captivating performance of The Hungry Caterpillar, which reinforced their understanding of storytelling and creativity in English. Our collaboration with academics from Western Sydney University during STEAM activities allowed students to explore innovative concepts and real-world applications of science, technology, engineering, arts, and mathematics. Finally, the Life Education Van will have provided valuable insights into health and wellbeing, equipping our students with the knowledge they need to make informed choices. These enriching experiences are vital in supporting our students' growth and fostering a love for learning!

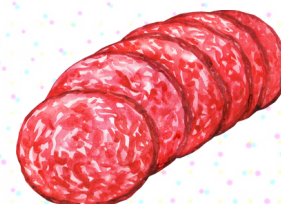

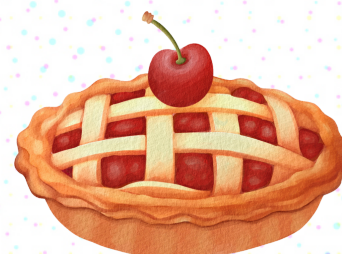

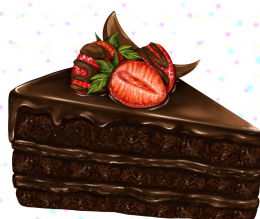

Wishing all our families a safe and restful holiday break when it arrives at the end of Week 11, Friday 11th April.

Warm regards,  
Shelley Kennedy  
Relieving Principal
